### SANDY BEACHES

Between authenticity and modernity, tranquillity and excitement, Saint-Cyprien enchants with its perfect balance. Its 6 kilometres of beaches alternate between lively spots, close to busy areas, and wilder expanses, ideal for getting away from it all. Bordered by vast green spaces, including a magnificent shady pine forest, they offer an exceptional natural setting. On one side, the Albera Massif and its watchtowers stand guard over the horizon, while on the other, the majestic Canigó dominates the landscape. Whether you prefer idle relaxation or dynamic activities, with family or friends, these beaches invite you to relax and soak up the energy of the great outdoors, in a breathtaking setting.

### THE LAGOON

Set in the heart of a protected natural area, the Les Capellans lagoon is one of the wildest beaches in Saint-Cyprien. Here, the wind and the sea help maintain the fragile balance of the dune ridge, providing a precious refuge for preserved flora and fauna. Protected by wooden fences that hold back the sand and shape the landscape, this authentic beach is criss-crossed by some magnificent paths, inviting you to discover and contemplate. A haven of peace where nature reigns supreme.

### THE LES CAPELLANS BOTANICAL GARDEN

A unique and simply magical place! Just a stone's throw from the beach, the Les Capellans Botanical Garden has been awarded the 'Remarkable Garden' label, and stretches out over 5 hectares of carefully landscaped greenery created with the help of eminent botanists and naturalists. A true invitation to escape, it is home to over 500 species from all over the world, set around two enchanting lakes. These include a spectacular bamboo grove, a magnificent collection of old roses and rare species to delight enthusiasts and the curious alike. In summer, this English-style garden becomes an open-air stage, hosting jazz, rock and classical music concerts, exhibitions, musical siestas, night-time cinema sessions and storytelling for children. Zen activities and captivating guided tours complete this rich and varied programme. This exceptional place captivates through its beauty and its peaceful atmosphere in equal measures. A charming little shop also offers a refined selection of articles and products inspired by the world of gardening.

**Please note:** For safety reasons, the Botanical Garden will be closed in the event of strong winds (in excess of 80 km/h). Bicycles, scooters, skateboards, ball games and animals are not permitted.

Ideal for relaxation and leisure activities, it offers an immersion in the heart of nature, punctuated by birdsong and the wind whispering through the leaves. Its three bodies of water, lined with lush vegetation, are home to a variety of wildlife: swans, mallards and teal roam freely under the gaze of walkers. Shady paths and green spaces make for an ideal setting to get away from it all. Designed with everyone in mind, the park also offers freely accessible sports courts, a fitness trail suitable for all abilities and a secure play area for children aged 2 to 8. All year round, it comes alive with concerts, shows and fun activities such as orienteering races. You'll also find a snack kiosk for a delicious break in the heart of nature. Throughout the year, the multimedia library offers a varied programme of events, including art and themed exhibitions, book clubs and writing workshops, along with special activities for children during the school holidays (excluding August and the festive period). This cultural offering is rounded off with a monthly lecture. This truly is the place to go for information, entertainment and to share your love of reading and knowledge.

## THE BEACH LIBRARY

Every summer from 1 July, a beach library opens its doors on the sands of Port-Cipriano. This temporary facility is a friendly, accessible place for summer visitors to enjoy a spot of reading by the sea. A wide range of books is on offer, including novels, children's comics and books on the marine ecosystem, so that everyone can escape or expand their knowledge while enjoying our exceptional coastal setting. A must-see event combining relaxation and culture throughout the summer.

Open every day from 11:00 to 18:00, except Mondays and Thursdays  
North Beach

## THE VILLAGE CHURCH

Built in the 18th century upon the remains of an ancient Roman church, of which a few elements remain today on the old door and the western facade, the Saint-Cyprien Church testifies to the town's rich architectural past. This single-nave building, with side chapels built at different times, was constructed using local materials – in particular, cayrous (terracotta bricks) and Villefranche-de-Conflent marble. The church is home to two holy figures: Saint Sébastien and Saint Gaudérique (Sant Galdric in Catalan), protector of farmers and an emblematic figure in Catalan heritage. A place steeped in history, not to be missed for its architecture and authentic atmosphere.

Rue Paul Eluard

## THE VILLERASE CHAPEL

Nestled in a green setting, the Villerase Chapel is one of Saint-Cyprien's historic treasures. Built between the 11th and 19th centuries, its choir – dating back to the 1100s – bears witness to its Roman origins. With its single nave, bell tower and five elegantly arranged arches, this building combines sobriety and architectural harmony. Fully restored, it is now one of the town's finest heritage sites, offering visitors a journey through history.

3, Villerase

## THE D'EN BOLTE TOUR

Part of the ancient surrounding walls built around 1350 to protect the town from invasions, the D'En Bolte Tower offers a precious insight into Saint-Cyprien's medieval history. This fortification formed part of the Castrum Cypriani, a defensive wall surrounding the houses of the village, made from tufa, Roman bricks and wood. Today, the D'En Bolte Tower is the last remaining fragment of this fortified past, recalling the town's strategic importance at that time.

6, rue Valéry Larbaud

## THE PLACE DE LA RÉPUBLIQUE

At the heart of the village, Place de la République is an essential meeting place for the people of Saint-Cyprien. This welcoming and friendly space comes alive with the seasons and hosts a series of events, including Saint-Cyprien's spectacular Festa Major, a highlight in the local calendar. In this lively place, tradition and conviviality come together to unite both residents and visitors.

## THE RODIN NEIGHBOURHOOD

Place Rodin and Rue Rodin are one of the most dynamic areas around Saint-Cyprien beach, offering a lively and friendly atmosphere. Lined with shops, cafés and restaurants, they guarantee a lively atmosphere all year round. Every Friday, the neighbourhood comes alive to the rhythm of its big market, attracting locals and visitors in search of local flavours and crafts. It is also the venue for numerous festivities and concerts, making it a must for summer evenings.

## THE GOLF COURSE

Just 500 metres from the beach, the Saint-Cyprien International Golf Course extends over 200 hectares in the heart of an ornithological reserve, with the majestic Canigó as its backdrop. Its two courses offer a unique experience: an 18-hole course over 6 km long, winding its way between the Mediterranean and the Étang de Canet lake – ideal for golfers in search of a real challenge and exceptional panoramic views – and a 9-hole course nestling in the heart of a forest, perfect for a more accessible and immersive game. The site is also home to a driving range, enabling beginners and advanced players alike to perfect their game all year round.

### COASTAL TRAIL: 2 KM OF MAGNIFICENT SEASIDE WALKS

The superbly redeveloped and plant-lined Saint-Cyprien coastal trail links the south of the town and its beach to the port.

Set amid some magnificent natural surroundings, this 2-km-long trail stretches from the swing bridge to the town of Elne.

Today, it is one of the resort's most attractive walking areas. Its natural materials make it particularly pleasant to walk and cycle around.

A simply magical outing!

### A SPECIAL WELCOME FOR BIKES

A special 'Accueil-vélo' area has been made available to cyclists at the northern entrance to Saint-Cyprien (Port Cipriano), facing the sea. Cycling enthusiasts, particularly those using the Eurovélo 8 and Agouille de la Mar greenways, will find bike shelters and stands, picnic tables, electric-vehicle charge points and special signage indicating the soft-mobility routes in Saint-Cyprien and neighbouring towns, as well as the natural areas and heritage treasures to be discovered.

### WALKS AND CYCLE RIDES ON MULTI-USE TRAILS

A number of 'greenways' (voie vertes) link land and sea in Saint-Cyprien. Reserved for walkers, joggers, cyclists, rollerbladers and scooter-riders, these signposted trails offer a different way to discover the countryside and heritage. Seven routes have been laid out for this purpose. This is a major advantage for the resort, which also lies along the European Euro-Vélo 8 and Euro-Vélo 8 bis cycle routes. These walks are detailed in the Trail Guide (free), available from the Tourist Office and downloadable from [www.tourisme-saint-cyprien.com](http://www.tourisme-saint-cyprien.com).

These loops can also be found on the Tourist Office website: [www.tourisme-saint-cyprien.com/se-déplacer-en-douceur](http://www.tourisme-saint-cyprien.com/se-déplacer-en-douceur) and on the **Visorando** app.

### 80 KM OF CYCLE AND PEDESTRIAN ROUTES

Saint-Cyprien is criss-crossed by a network of excellent, safe cycle and pedestrian routes, making it one of the most committed resorts in terms of soft mobility. Saint-Cyprien can now be reached from Canet-en-Roussillon and Argelès-sur-Mer, while all the resort's main roads and key sites (campsites, sports complexes, shopping centres, green spaces and leisure areas, etc.) are connected to these greenways – a delight for tourists and residents alike.

### THINGS TO DO AROUND SAINT-CYPRIEN

# A day out - Pyrénées-Orientales

Wake up right by the sea, go hiking in the mountains, then come back for a swim on the beach and spend the evening in a lively club... For some people, it's a dream, but in Saint-Cyprien, it's a reality! Just an hour and a half from the mountains, less than an hour from idyllic inland destinations and 30 minutes from the Spanish border, Saint-Cyprien is the ideal destination for a varied holiday full of wonderful surprises!

## Le Fenouillèdes

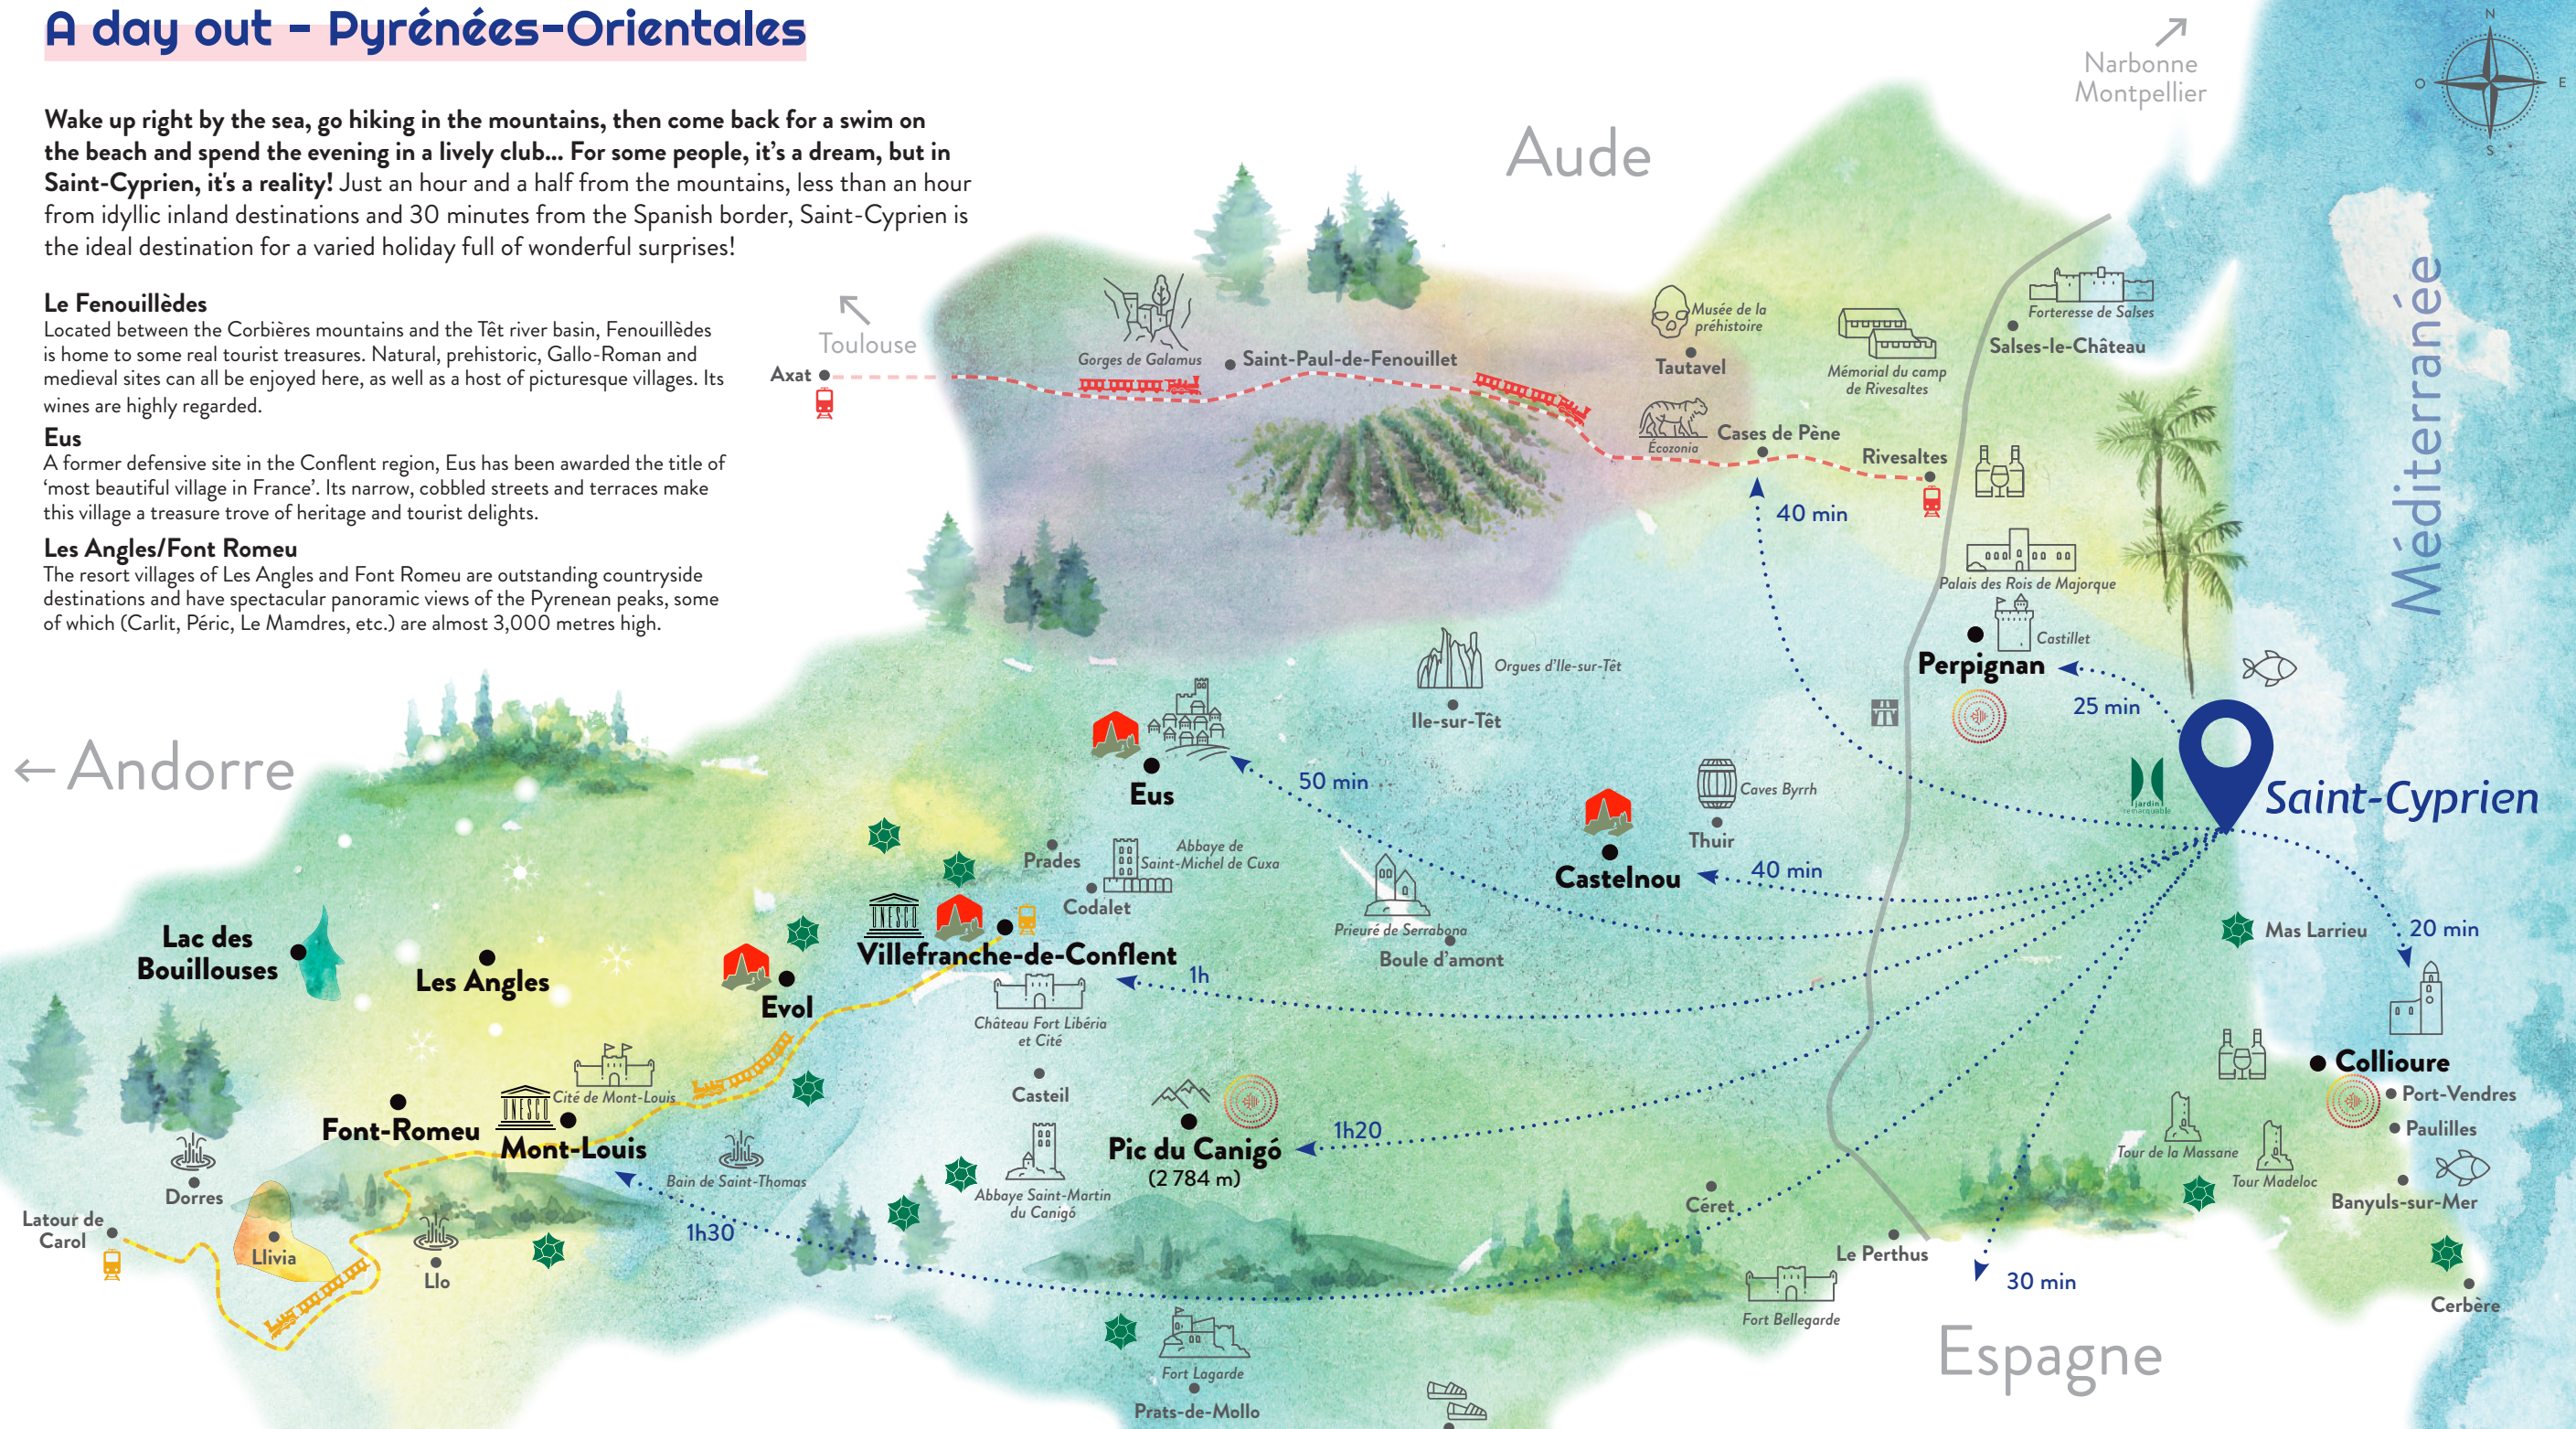

Located between the Corbières mountains and the Têt river basin, Fenouillèdes is home to some real tourist treasures. Natural, prehistoric, Gallo-Roman and medieval sites can all be enjoyed here, as well as a host of picturesque villages. Its wines are highly regarded.

## Eus

A former defensive site in the Conflent region, Eus has been awarded the title of 'most beautiful village in France'. Its narrow, cobbled streets and terraces make this village a treasure trove of heritage and tourist delights.

## Les Angles/Font Romeu

The resort villages of Les Angles and Font Romeu are outstanding countryside destinations and have spectacular panoramic views of the Pyrenean peaks, some of which (Carlit, Péric, Le Mamdres, etc.) are almost 3,000 metres high.

## Perpignan

The former mainland capital of the Kingdom of Majorca, Perpignan has a strong Catalan identity. The capital of the Pyrénées-Orientales, it is also the last major town before Spain.

## Collioure

Known as the 'pearl of the Côte Vermeille', this small, fortified town attracts tens of thousands of visitors every year. Nestling in a bay and built right down to the beach, it boasts a rich architectural and cultural heritage that has retained all its authenticity.
